

CTL422 Interactive Digital Signage

The CTL422 IDS All-in-One touch display is a brand-new media which is used in public, such as shopping mall, supermarket, hotel, cinema. It can broadcast discount information and amusement information.

Compared to conventional digital signage, the interactive digital signage allows customers to interact with the signage to enhance customer engagement and in-store sales. With good image quality and accurate touch responses, customers can find an easy way to finish their shopping with less time.

GeneralTouch's CTL422 IDS All-in-One touch display uses the new zero-bezel SAW touch technology. It is easy and cost-effective to clean and maintain because of the special zero-bezel structure. With professional LCD and hardware, the CTL422 offers excellent display and touch experience.

The IDS are also provided with 32" and 42". All of the IDS can be used in retail, transportation, self-service, education and healthcare.

Features:

- Zero-bezel SAW touch technology
- Professional LCD panel
- Firm designed for public usage
- Zero-bezel, easy to clean and maintain
- Dust and water proof
- Removable stand and VESA mounting option
- Horizontal or vertical display

Applications:

- Retail
- Banking machines
- Point-of-Information(POI)
- Hospitality system
- Gaming/Amusement

Specifications

Model	CTL422
